

Creating innovative locker solutions for every business

Cloakroom Range

**Probe**

# Delivering quality products & solutions

## Over 60 years in the making

Unrivalled in the market, our design-led features, modern aesthetics, and unparalleled support materials enable us to meet the secure storage requirements of any sector.

## Manufacturing excellence

**With an extensive range of locker types available in various sizes, configurations, materials and colours, you can fulfil the requirements of any working environment.**

Operating in accordance with the latest ISO standards and NEBOSH regulations, quality is assured across all our UK manufacturing locations.

As a Made in Britain member, you and your customers are guaranteed that all Probe products are manufactured here in the UK and meet the highest British standards.

Being a trusted brand, we are dedicated to enhancing our environmental, social and ethical impact. Our Gold EcoVadis rating recognises our commitment to fostering sustainable business practices and reducing Greenhouse Gas (GHG) emissions.

*When you choose Probe, you benefit from shorter lead times, less supply chain risks and better customer service.*

# Proven standards

Unrivalled in the locker market to provide unmatched quality and satisfaction, Probe products are manufactured to the highest quality standards to meet the secure storage requirements of your customers.

## **PROBE** **FIREZERO**

Independently tested for Fire combustibility and adhering to European Standard: EN 13501-1: 2007 +A1: 2009, Probe lockers are built to endure the extreme temperatures experienced in the outbreak of a fire and will not:

- Combust
- Increase
- Sustain any fire within its proximity

### **MEETS BS 4680: 1996**

excluding size specification

Probe lockers have been independently tested and conform to BS 4680:1996, meeting British standards for quality and safety, to provide your customers with secure and reliable storage solutions.

### Warranty

Committed to enhancing the quality and durability of our products, our lockers come with a 7-year warranty on the carcass and a 5-year warranty on electrical components for peace of mind for you and your customers.

## Reduce cross-contamination

Included as standard in the powder coating process, ActiveCoat prevents the growth and migration of potentially harmful bacteria, mould, fungi, algae and more, reducing the risk of cross-contamination from surface to surface.

- ✓ 99.9% reduction in E-coli & MRSA super bug
- ✓ Independently tested
- ✓ 100% safe to humans
- ✓ Effective for the life of the coating

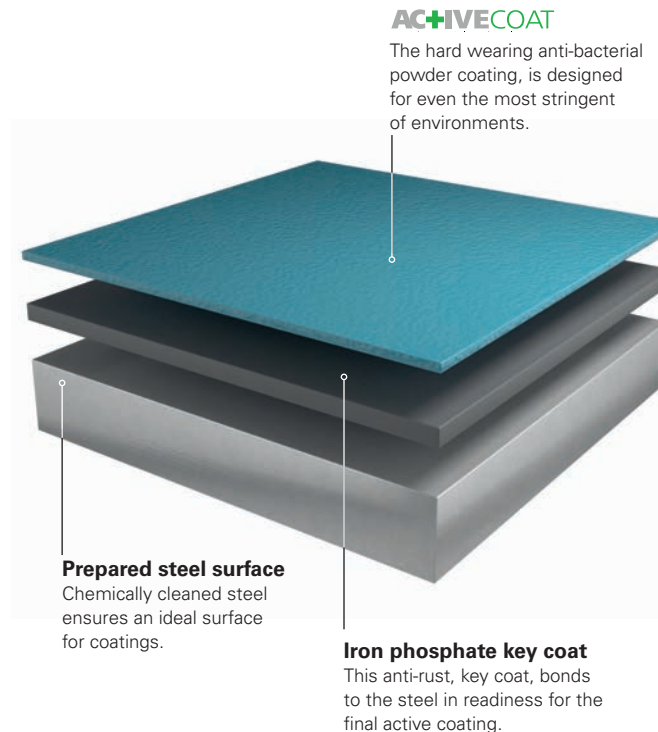

All plastic components used in the manufacture of Probe products incorporate a silver-based anti-bacterial agent.

## Independently tested and verified

ActiveCoat has been independently tested and verified to conform to ISO 2219. Offering strong antibacterial properties against the most widely encountered and problematic organisms, ActiveCoat effectively reduces bacteria populations by 99.9%.

## Long term protection

Unlike anti-bacterial sprays and chemical disinfectants which rely on repeated application, ActiveCoat contains anti-bacterial agents distributed throughout the powder coating, continuing to offer antimicrobial properties for the life of the coating.

## The science behind the solution

Operating on a molecular level, ActiveCoat is highly effective at very low concentrations. The silver-based additives fight microbes on three fronts:

- They bind with the cell wall and impede growth.
- They inhibit enzyme production, hampering the cell's ability to produce energy.
- They disrupt cells' DNA, preventing cellular replication.

This three-pronged attack stops microbes in their tracks and drastically reduces microbial load on treated surfaces.

# Premium cloakroom seating

Comprehensive range of easy-to-install cloakroom units, with a wide choice of options and accessories, ensuring you will find exactly what you are looking for. All units are available in a choice of five exciting colours to match your interior.

- Hook Bench and Benches are available with three seat heights, **Infant**, **Junior** and **Senior**, making them the perfect solution for schools; whatever age group they teach.
- Frames are constructed from robust 50mm round, thick wall tubing with welded joints for strength and durability.
- Adjustable feet fitted to all floor standing units.

#### Beech Solid Timber Slats

Sourced from sustainable forests.

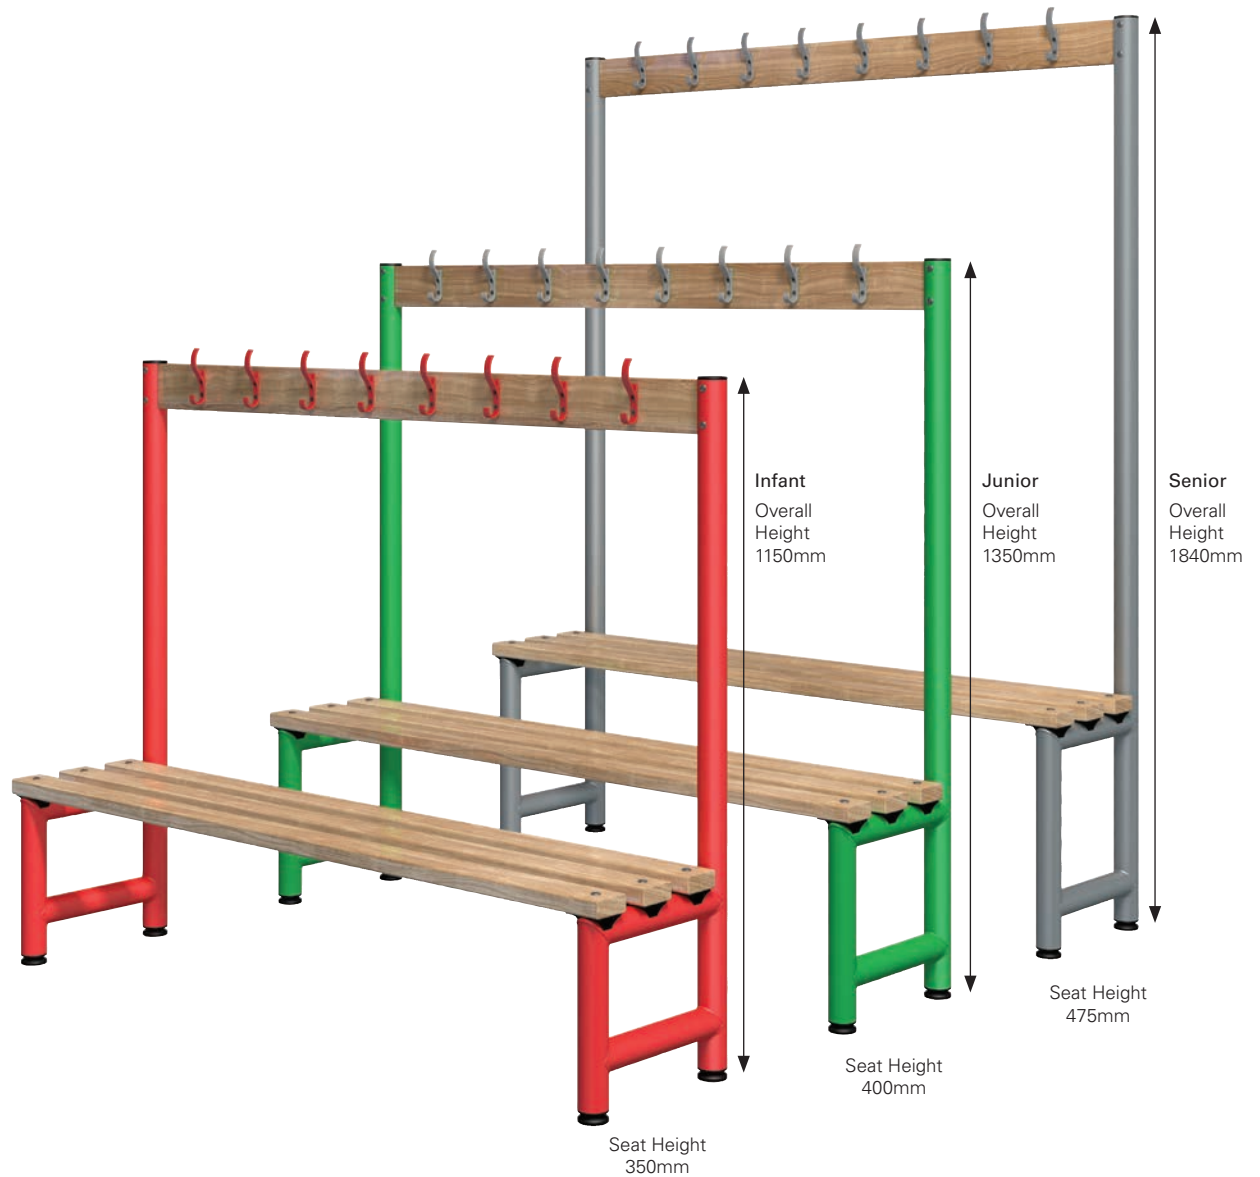

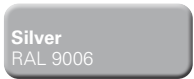

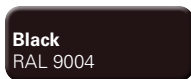

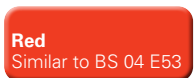

#### Black Polymer Slats

Manufactured with an antibacterial finish; these food grade slats are ideal for educational or leisure wet area changing areas.

#### AC+IVECOAT

ActiveCoat technology as standard.

#### Standard Frame Colours

# Hook bench

Strong and robust hook bench for changing rooms, cloakrooms etc. Choice of single or double sided units with 5, 8, 10, 16 or 20 hooks. Single-sided bench is ideal up against the perimeter wall while the double unit fits perfectly in the middle of the room.

- Beech or black polymer slats.
- Choice of three seat heights, makes them the perfect solution for schools; whatever age group they teach.
- These virtually unbreakable, polymer coat hooks, have been ergonomically designed and contain ActiveCoat technology.

Silver & green frames have silver hooks while WHITE frames feature black hooks.

Red, blue, black & yellow frames are available with matching coloured hooks.

Single sided Black Polymer  
2000mm wide hook bench  
**W 1000 x D 375 mm**  
**W 1500 x D 375 mm**  
**W 2000 x D 375 mm**

Double sided Beech 2000mm wide  
hook bench  
**W 1000 x D 710 mm**  
**W 1500 x D 710 mm**  
**W 2000 x D 710 mm**

# Slatted bench

Ideal for sporting, medical, education or industrial changing areas, free-standing cloakroom benching is an integral part of any changing room facility.

- Beech or black polymer slats.
- Choice of three seat heights, **Infant, Junior** and **Senior** makes them the perfect solution for schools; whatever age group they teach.
- Complete with adjustable feet.

Double sided Beech 2000mm bench

W 1000 x D 710 mm  
 W 1200 x D 710 mm  
 W 1500 x D 710 mm  
 W 2000 x D 710 mm

Single sided Beech 1200mm wide bench

W 1000 x D 710 mm  
 W 1200 x D 710 mm  
 W 1500 x D 710 mm  
 W 2000 x D 710 mm

Senior  
 Seat Height  
 475mm

Junior  
 Seat Height  
 400mm

Infant  
 Seat Height  
 350mm

# Overhead bench

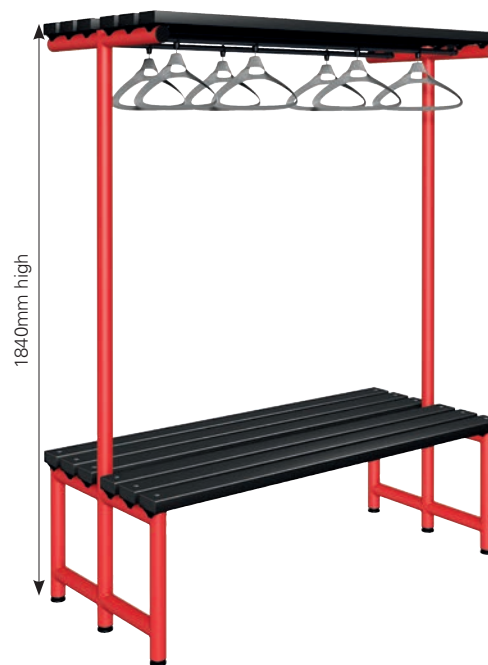

Designed for use in gyms, sports & leisure centres or changing areas, overhead hanging bench seating allows garments to be hung up while shoes and sports bags are neatly stored on the top shelf above.

- Beech or black polymer slats.
- Seat height 475mm.
- Unit height 1840mm.
- Complete with adjustable feet.

Single sided Beech 1500mm wide overhead hanging bench

W 1000 x D 375 mm  
 W 1500 x D 375 mm  
 W 2000 x D 375 mm

Double sided Black Polymer 1500mm wide overhead hanging bench

W 1000 x D 710 mm  
 W 1500 x D 710 mm  
 W 2000 x D 710 mm

# Cloakroom options
